## Word Count

This chart presents the word count in the Hebrew text of the Psalms for two counts.

The *Text* column relates all Hebrew text in the Psalms that was part of the song.

The *Total* column includes the extra wording, such as introduction information, musical notations, such as Selahs, etc.

At the final psalm of two books (Book 2, Ps. 72 and Book 3, Ps. 89) we find a doxology that gives different counts. I included both counts.

*I hope this composite of data will be of help for those going into more in-depth textual research on the Psalms.*
